New text: ... including 200–600 g of payload ...

Page 33 Table 2, lines 3 and 4

Old text:

Producer's accuracy ¹	The probability that a sampled polygon on the map is that particular class in the reference data.
User's accuracy ¹	The probability that a certain reference class has also been labelled that class in the map.

New text:

User's accuracy ¹	The probability that a polygon classified into a given category actually represents that category on the ground
Producer's accuracy ¹	The probability that a polygon belonging to a given category on the ground also has been labelled that category in the map.
