

ACTA UNIVERSITATIS AGRICULTURAE SUECIAE

DOCTORAL THESIS NO. 2021:24

Production and consumption patterns contribute to sustainable use of resources and can be encouraged by environmental policies. This thesis explores the effect of certain environmental policies on the Swedish industry and their greenhouse gas emissions and environmental consumption and behaviour patterns of households.

Sandra Schusser received her graduate education at the Department of Forest Economics, SLU, Umeå. She has a Master of Science in Economic Development and Growth from Lund University and University Carlos III of Madrid, Spain.

Acta Universitatis Agriculturae Sueciae presents doctoral theses from the Swedish University of Agricultural Sciences (SLU).

SLU generates knowledge for the sustainable use of biological natural resources. Research, education, extension, as well as environmental monitoring and assessment are used to achieve this goal.
